

b. The term “club” means any nonprofit corporation or association of individuals which is the owner, lessee, or occupant of a permanent building or part of a building, membership in which entails the prepayment of regular dues, and which is not operated for a profit other than profits which would accrue to the entire membership including, but not limited to, any chapter, aerie, parlor, lodge, or other local unit of an American national fraternal organization.

A club described in this rule holding an alcoholic beverage license pursuant to Iowa Code chapter 123 must provide on each receipt furnished to a taxpayer a printed statement as follows: “The expenditures covered by this receipt are nondeductible for state income tax purposes.”

This rule is intended to implement Iowa Code Supplement section 422.7 as amended by 1994 Iowa Acts, Senate File 2215.

#### **701—40.42(422) Depreciation of speculative shell buildings.**

**40.42(1)** For tax years beginning on or after January 1, 1992, speculative shell buildings constructed or reconstructed after that date may be depreciated as 15-year property under the accelerated cost recovery system of the Internal Revenue Code. If the taxpayer has deducted depreciation on the speculative shell building on the taxpayer’s federal income tax return, that amount of depreciation must be added to the federal adjusted gross income in order to deduct depreciation computed under this rule.

**40.42(2)** On sale or other disposition of the speculative building, the taxpayer must report on the taxpayer’s Iowa individual income tax return the same gain or loss as is reported on the taxpayer’s federal individual income tax return. If, while owned by the taxpayer, the building is converted from a speculative shell building to another use, the taxpayer must deduct the same amount of depreciation on the taxpayer’s Iowa tax return as is deducted on the taxpayer’s federal tax return.

**40.42(3)** For the purposes of this rule, the term “speculative shell building” means a building as defined in Iowa Code subsection 427.1(4).

This rule is intended to implement Iowa Code section 422.7.

**701—40.43(422) Retroactive exemption for payments received for providing unskilled in-home health care services to a relative.** Retroactive to January 1, 1988, for tax years beginning on or after that date, supplemental assistance payments authorized under Iowa Code section 249.3(2) “a”(2) which are received by an individual providing unskilled in-home health care services to a member of the caregiver’s family are exempt from state income tax to the extent that the individual caregiver is not a licensed health care professional designated in Iowa Code section 147.13, subsections 1 to 10.

For purposes of this exemption, a member of the caregiver’s family includes a spouse, parent, step-parent, child, stepchild, brother, stepbrother, sister, stepsister, lineal ancestor such as grandparent and great-grandparent, and lineal descendant such as grandchild and great-grandchild, and those previously described relatives that are related by marriage or adoption. Those licensed health care professionals that are not eligible for this exemption include medical doctors, doctors of osteopathy, physician assistants, psychologists, podiatrists, chiropractors, physical therapists, occupational therapists, nurses, dentists, dental hygienists, optometrists, speech pathologists, and audiologists.

Taxpayers who paid state income tax on the supplemental assistance payments on individual income tax returns for tax years beginning in the 1988 calendar year and who are eligible for the exemption may claim refunds of state income tax paid on the assistance payments, if the refund claims are filed with the department of revenue and finance on or before April 30, 1993.

This rule is intended to implement Iowa Code section 422.7.

**701—40.44(422,541A) Individual development accounts.** Individual development accounts are authorized for low-income taxpayers for tax years beginning on or after January 1, 1994. Additions to the accounts are described in the following subrule:

**40.44(1) *Exemption of additions to individual development accounts.*** The following additions to individual development accounts are exempt from the state income tax of the owners of the accounts to the extent the additions were subject to federal income tax:

*a.* The amount of contributions made in the tax year to an account by persons and entities other than the owner of the account.

*b.* The amount of any savings refund made in the tax year to an account as authorized for contributions made to the accounts by the owner of the account.

*c.* Earnings on the account in the tax year or interest earned on the account.

**40.44(2) *Additions to net income for withdrawals from individual development accounts.*** Rescinded IAB 9/11/96, effective 10/16/96.

This rule is intended to implement Iowa Code sections 422.7, 541A.2 and 541A.3 as amended by 1996 Iowa Acts, Senate File 2324.

**701—40.45(422) Exemption for distributions from pensions, annuities, individual retirement accounts, and deferred compensation plans received by nonresidents of Iowa.** For tax years beginning on or after January 1, 1994, a distribution from a pension plan, annuity, individual retirement account, and deferred compensation plan which is received by a nonresident of Iowa is exempt from Iowa income tax to the extent the distribution is directly related to the documented retirement of the pensioner, annuitant, owner of individual retirement account, or participant in a deferred compensation arrangement. In a situation where the pensioner, annuitant, owner of the individual retirement account, or participant of a deferred compensation arrangement dies before the date of documented retirement, any distribution from the pension, annuity, individual retirement account, or deferred compensation arrangement will not be taxable to the beneficiary receiving the distributions, if the beneficiary is a nonresident of Iowa. If the pensioner, annuitant, owner of the individual retirement account, or participant of a deferred compensation arrangement dies after the date of documented retirement, any distributions from the pension, annuity, individual retirement account, or deferred compensation arrangement will not be taxable to a beneficiary receiving distributions if the beneficiary is a nonresident of Iowa.

For purposes of this rule, the distributions from the pensions, annuities and deferred compensation arrangements were from pensions, annuities, and deferred compensation earned entirely or at least partially from employment or self-employment in Iowa. For purposes of this rule, distributions from individual retirement arrangements were from individual retirement arrangements that were funded by contributions from the arrangements that were deductible or partially deductible on the Iowa income tax return of the owner of the individual retirement accounts.

The following subrules include definitions and examples which clarify when distributions from pensions, annuities, individual retirement accounts, and deferred compensation arrangements are exempt from Iowa income tax, when the distributions are received by nonresidents of Iowa:

**40.45(1) *Definitions.***

*a.* The word “beneficiary” means an individual who receives a distribution from a pension or annuity plan, individual retirement arrangement, or deferred compensation plan as a result of either the death or divorce of the pensioner, annuitant, participant of a deferred compensation arrangement, or owner of an individual retirement account.

*b.* The term “individual’s documented retirement” means any evidence that the individual can provide to the department of revenue and finance which would establish that the individual or the individual’s beneficiary is receiving distributions from the pension, annuity, individual retirement account, or the deferred compensation arrangement due to the retirement of the individual.

Examples of documents that would establish an individual’s retirement may include: copies of birth certificates or driver’s licenses to establish an individual’s age; copies of excerpts from an employer’s personnel manual or letter from employer to establish retirement or early retirement policies; a copy of a statement from a physician to establish an individual’s disability which could have contributed to a person’s retirement.

*c.* The term “nonresident” applies only to individuals and includes all individuals other than those individuals domiciled in Iowa and those individuals who maintain a permanent place of abode in Iowa. See 701—subrule 38.1(9) for the definition of domicile.

**40.45(2) Examples:**

*a.* John Jones had worked for the same Iowa employer for 32 years when he retired at age 62 and moved to Arkansas in March of 1994. Mr. Jones started receiving distributions from the pension plan from his former employer starting in May 1994. Because Mr. Jones was able to establish that he was receiving the distributions from the pension plan due to his retirement from his employment, Mr. Jones was not subject to Iowa income tax on the distributions from the pension plan. Note that Mr. Jones had sold his Iowa residence in March and established his domicile in Arkansas at the time of his move to Arkansas.

*b.* Wanda Smith was the daughter of John Smith who died in February 1994 after 25 years of employment with a company in Urbandale, Iowa. Wanda Smith was the sole beneficiary of John and started receiving distributions from John’s pension in April 1994. Wanda Smith was a bona fide resident of Oakland, California, when she received distributions from her father’s pension. Wanda was not subject to Iowa income tax on the distributions since she was a nonresident of Iowa at the time the distributions were received.

*c.* Martha Graham was 55 years old when she quit her job with a firm in Des Moines to take a similar position with a firm in Dallas, Texas. Ms. Graham had worked for the Des Moines business for 22 years before she resigned from the job in May 1994. Starting in July 1994, Ms. Graham received monthly distributions from the pension from her former Iowa employer. Although Ms. Graham was a nonresident of Iowa, she was subject to Iowa income tax on the pension distribution since the taxpayer didn’t have a documented retirement.

*d.* William Moore was 58 years old when he quit his job with a bank in Mason City in February 1994 after 30 years of employment with the bank. By the time Mr. Moore started receiving pension payments from his employment with the bank, he had moved permanently to New Mexico. Shortly after he arrived in New Mexico, Mr. Moore secured part-time employment. The pension payments were not taxable to Iowa as Mr. Moore was retired notwithstanding his part-time employment in New Mexico.

*e.* Joe Brown had worked for an Iowa employer for 25 years when he retired in June 1992 at the age of 65. Mr. Brown started receiving monthly pension payments in July 1992. Mr. Brown resided in Iowa until August 1994, when he moved permanently to Nevada to be near his daughter. Mr. Brown was not taxable to Iowa on the pension payments he received after his move to Nevada. Mr. Brown’s retirement occurred in June 1992 when he resigned from full-time employment.

This rule is intended to implement Iowa Code section 422.8.

**701—40.46(422) Taxation of compensation of nonresident members of professional athletic teams.** Effective for tax years beginning on or after January 1, 1995, the Iowa source income of a nonresident individual who is a member of a professional athletic team includes the portion of the individual's total compensation for services provided for the athletic team that is in the ratio that the number of duty days spent in Iowa rendering services for the team during the tax year bears to the total number of duty days spent both within and without Iowa in the tax year. Thus, if a nonresident member of a professional athletic team has \$50,000 in total compensation from the team in 1995 and the athlete has 20 Iowa duty days and 180 total duty days for the team in 1995, \$5,556 of the compensation would be taxable to Iowa ( $\$50,000 \times 20/180 = \$5,556$ ).

The following subrules include definitions, examples, and other information which clarify Iowa's taxation of nonresident members of professional athletic teams:

**40.46(1) Definitions.**

a. The term "professional athletic team" includes, but is not limited to, any professional baseball, basketball, football, soccer, or hockey team.

b. The term "member of a professional athletic team" includes those employees who are active players, players on the disabled list, and any other persons required to travel and who travel with and perform services on behalf of a professional athletic team on a regular basis. This includes, but is not limited to, coaches, managers, and trainers.

c. The term "total compensation for services rendered as a member of a professional athletic team" means the total compensation received during the taxable year for services rendered. "Total compensation" includes, but is not limited to, salaries, wages, bonuses (as described in subparagraph (1) of this paragraph), and any other type of compensation paid during the taxable year to a member of a professional athletic team for services performed in that year. Such compensation does not include strike benefits, severance pay, termination pay, contract or option year buy-out payments, expansion or relocation payments, and any other payments not related to services rendered for the team.

For purposes of this paragraph, "bonuses" included in "total compensation for services rendered as a member of a professional athletic team" subject to the allocation described in this rule are:

(1) Bonuses earned as a result of play (i.e., performance bonuses) during the season, including bonuses paid for championship, playoff, or "bowl" games played by a team, or for the member's selection to all-star, league, or other honorary positions; and

(2) Bonuses paid for signing a contract, unless all of the following conditions are met:

1. The payment of the signing bonus is not conditional upon the signee playing any games for the team, or performing any subsequent services for the team, or even making the team;

2. The signing bonus is payable separately from the salary and any other compensation; and

3. The signing bonus is nonrefundable.

d. Except as provided in subparagraphs (4) and (5) of this paragraph, the term "duty days" means all days during the taxable year from the beginning of the professional athletic team's official preseason training period through the last game in which the team competes or is scheduled to compete. Duty days are included in the allocation described in this rule for the tax year in which they occur, including where a team's official preseason training period through the last game in which the team competes, or is scheduled to compete, occurs during more than one tax year.

(1) Duty days also includes days on which a member of a professional athletic team renders a service for a team on a date which does not fall within the previously mentioned period (e.g., participation in instructional leagues, the "Pro Bowl" or promotional "caravans"). Rendering a service includes conducting training and rehabilitation activities, but only if conducted at the facilities of the team.

(2) Included within duty days are game days, practice days, days spent at team meetings, promotional caravans and preseason training camps, and days served with the team through all postseason games in which the team competes or is scheduled to compete.

(3) Duty days for any person who joins a team during the period from the beginning of the professional athletic team's official preseason training period through the last game in which the team competes, or is scheduled to compete, begins on the day the person joins the team. Conversely, duty days for any person who leaves a team during such period ends on the day the person leaves the team. When a person switches teams during a taxable year, separate duty day calculations are to be made for the period the person was with each team.

(4) Days for which a member of a professional athletic team is not compensated and is not rendering services for the team in any manner, including days when the member of a professional athletic team has been suspended without pay and prohibited from performing any services for the team, are not to be treated as duty days.

(5) Days for which a member of a professional athletic team is on the disabled list and does not conduct rehabilitation activities at facilities of the team and is not otherwise rendering services for the team in Iowa, are not to be considered duty days spent in Iowa. However, all days on the disability list are considered to be included in total duty days spent both within and outside the state of Iowa.

(6) Total duty days for members of a professional athletic team that are not professional athletes are the number of days in the year that the members are employed by the professional athletic team. Thus, in the case of a coach of a professional athletic team who was coach for the entire year of 1995, the coach's total duty days for 1995 would be 365.

(7) Travel days in Iowa by a team member that do not involve a game, practice, team meeting, all-star game, or other personal service for the team are not considered to be duty days in Iowa. However, to the extent these days fall within the period from the team's preseason training period through the team's final game, these Iowa travel days will be considered in the total duty days spent within and outside Iowa, for team members who are professional athletes.

(8) Duty days in Iowa do not include days a team member performs personal services for the professional athletic team in Iowa on those days that the team member is a bona fide resident of a state with which Iowa has a reciprocal tax agreement. See rule 701—38.13(422).

**40.46(2)** *Filing composite Iowa returns for nonresident members of professional athletic teams.* Professional athletic teams may file composite Iowa returns on behalf of team members who are nonresidents of Iowa and who have compensation that is taxable to Iowa from duty days in Iowa for the athletic team. However, the athletic team may include on the composite return only those team members who are nonresidents of Iowa and who have no Iowa source incomes other than the incomes from duty days in Iowa for the team. The athletic team may exclude from the composite return any team member who is a nonresident of Iowa and whose income from duty days in Iowa is less than \$1,000. See rule 701—48.1(422) about filing Iowa composite returns.

**40.46(3) Examples of taxation of nonresident members of professional athletic teams.**

a. Player A, a member of a professional athletic team, is a nonresident of Iowa. Player A's contract for the team requires A to report to such team's training camp and to participate in all exhibition, regular season, and playoff games. Player A has a contract which covers seasons that occur during year 1/year 2 and year 2/year 3. Player A's contract provides that A is to receive \$500,000 for the year 1/year 2 season and \$600,000 for the year 2/year 3 season. Assuming player A receives \$550,000 from the contract during taxable year 2 (\$250,000 for one-half the year 1/year 2 season and \$300,000 for one-half the year 2/year 3 season), the portion of compensation received by player A for taxable year 2, attributable to Iowa, is determined by multiplying the compensation player A receives during the taxable year (\$550,000) by a fraction, the numerator of which is the total number of duty days player A spends rendering services for the team in Iowa during taxable year 2 (attributable to both the year 1/year 2 season and the year 2/year 3 season) and the denominator of which is the total number of player A's duty days spent both within and outside Iowa for the entire taxable year.

b. Player B, a member of a professional athletic team, is a nonresident of Iowa. During the season, B is injured and is unable to render services for B's team. While B is undergoing medical treatment at a clinic, which is not a facility of the team, but is located in Iowa, B's team travels to Iowa for a game. The number of days B's team spends in Iowa for practice, games, meetings, for example, while B is present at the clinic, are not to be considered duty days spent in Iowa for player B for that taxable year for purposes of this rule, but these days are considered to be included within total duty days spent both within and outside Iowa.

c. Player C, a member of a professional athletic team, is a nonresident of Iowa. During the season, C is injured and is unable to render services for C's team. C performs rehabilitation exercises at the facilities of C's team in Iowa as well as at personal facilities in Iowa. The days C performs rehabilitation exercise in the facilities of C's team are considered duty days spent in Iowa for player C for that taxable year for purposes of this rule. However, days player C spends at personal facilities in Iowa are not to be considered duty days spent in Iowa for player C for that taxable year for purposes of this rule, but the days are considered to be included within total duty days spent both within and outside Iowa.

d. Player D, a member of a professional athletic team, is a nonresident of Iowa. During the season, D travels to Iowa to participate in the annual all-star game as a representative of D's team. The number of days D spends in Iowa for practice, the game, meetings, for example, are considered to be duty days spent in Iowa for player D for that taxable year for purposes of this rule, as well as included within total duty days spent both within and outside Iowa.

e. Assume the same facts as given in paragraph "d," except that player D is not participating in the all-star game and is not rendering services for D's team in any manner. Player D is instead traveling to and attending this game solely as a spectator. The number of days player D spends in Iowa for the game is not to be considered to be duty days spent in Iowa for purposes of this rule. However, the days are considered to be included within total duty days spent both within and outside Iowa.

**40.46(4) Use of an alternative method to compute taxable portion of a nonresident's compensation as a member of a professional athletic team.** If a nonresident member of a professional athletic team believes that the method provided in this rule for allocation of the member's compensation to Iowa is not equitable, the nonresident member may propose the use of an alternative method for the allocation of the compensation to Iowa. The request for an alternative method for allocation must be filed no later than 60 days before the due date of the return, considering that the due date may be extended for up to 6 months after the original due date if at least 90 percent of the tax liability was paid by the original due date (April 30 for taxpayers filing on a calendar-year basis).

The request for an alternative method should be filed with the Policy Section, Compliance Division, P.O. Box 10457, Des Moines, Iowa 50306. The request must set forth the alternative method for allocation to Iowa of the compensation of the nonresident professional team member. In addition, the request must specify, in detail, why the method for allocation of the compensation set forth in this rule is not equitable, as well as why the alternative method for allocation of the compensation is more equitable than the method provided in this rule. The burden of proof is on the nonresident professional team member to show that the alternative method is more equitable than the method provided in the rule.

If the department determines that the alternative method is more reasonable for allocation of the taxable portion of the team member's compensation than the method provided in this rule, the team member can use the alternative method on the current return and on subsequent returns.

If the department rejects the team member's use of the alternative method, the team member may file a protest within 60 days of the date of the department's letter of rejection. The nonresident team member's protest of the department's rejection of the alternate formula must be made in accordance with rule 701—7.41(17A) and must state, in detail, why the method provided in this rule is not equitable, as well as why the alternative method for allocation of the compensation is more equitable than the method set forth in this rule.

This rule is intended to implement Iowa Code sections 422.3, 422.7, and 422.8.

**701—40.47(422) Partial exclusion of pensions and other retirement benefits for disabled individuals, individuals who are 55 years of age or older, surviving spouses, and survivors.** For tax years beginning on or after January 1, 1995, an individual who is disabled, is 55 years of age or older, is a surviving spouse, or is a survivor with an insurable interest in an individual who would have qualified for the exclusion is eligible for a partial exclusion of retirement benefits received in the tax year. For tax years beginning on or after January 1, 2001, the partial exclusion of retirement benefits received in the tax year is increased up to a maximum of \$6,000 for a person other than a husband or wife who files a separate state return and up to a maximum of \$12,000 for a husband and wife who file a joint Iowa return. For tax years beginning on or after January 1, 1998, the partial exclusion of retirement benefits received in the tax year was increased up to a maximum of \$5,000 for a person, other than a husband or wife who files a separate state income tax return, and up to a maximum of \$10,000 for a husband and wife who file a joint state income tax return. A husband and wife filing separate state income tax returns or separately on a combined state return are allowed a combined exclusion of retirement benefits of up to a maximum of \$10,000 for tax years beginning in 1998, 1999 and 2000 and a combined exclusion of up to a maximum of \$12,000 for tax years beginning on or after January 1, 2001. The \$10,000 or \$12,000 exclusion may be allocated to the husband and wife in the proportion that each spouse's respective pension and retirement benefits received bear to the total combined pension and retirement benefits received by both spouses.

**EXAMPLE 1.** A married couple elected to file separately on the combined return form. Both spouses were 55 years of age or older. The wife received \$95,000 in retirement benefits and the husband received \$5,000 in retirement benefits. Since the wife received 95 percent of the retirement benefits, she would be entitled to 95 percent of the \$10,000 retirement income exclusion or a retirement income exclusion of \$9,500. The husband would be entitled to 5 percent of the \$10,000 retirement income exclusion or an exclusion of \$500.

**EXAMPLE 2.** A married couple elected to file separately on the combined return form. Both spouses were 55 years of age or older. The husband had \$15,000 in retirement benefits from a pension. The wife received no retirement benefits. In this situation, the husband can use the entire \$10,000 retirement income exclusion to exclude \$10,000 of his pension benefits since the spouse did not use any of the \$10,000 retirement income exclusion for the tax year.

For tax years beginning on or after January 1, 1995, but prior to January 1, 1998, the retirement income exclusion was up to \$3,000 for single individuals, up to \$3,000 for each married person filing a separate Iowa return, up to \$3,000 for each married person filing separately on the combined return form, and up to \$6,000 for married taxpayers filing joint Iowa returns. For example, a married couple elected to file separately on the combined return form and both spouses were 55 years of age or older. One spouse had \$2,000 in pension income that could be excluded, since the pension income was \$3,000 or less. The other spouse had \$6,000 in pension income and could exclude \$3,000 of that income due to the retirement income exclusion. This second spouse could not exclude an additional \$1,000 of the up to \$3,000 retirement income exclusion that was not used by the other spouse.

"*Insurable interest*" is a term used in life insurance which also applies to this rule and is defined to be "such an interest in the life of the person insured, arising from the relations of the party obtaining the insurance, either as credit of or surety for the assured, or from the ties of blood or marriage to him, as would justify a reasonable expectation of advantage or benefit from the continuance of his life." *Warnock v. Davis*, 104 U.S. 775, 779, 26 L.Ed. 924; *Connecticut Mut. Life Ins. Co. v. Luchs*, 2 S.Ct. 949, 952, 108 U.S. 498, 27 L.Ed. 800; Appeal of Corson, 6 A. 213, 215, 113 Pa. 438, 57 Am. Rep. 479; *Adams' Adm'r v. Reed*, Ky., 36 S.W. 568, 570; *Trinity College v. Travelers' Co.*, 18 S.E. 175, 176, 113 N.C. 244, 22 L.R.A. 291; *Opitz v. Karel*, 95 N.W. 948, 951, 118 Wis. 527, 62 L.R.A. 982. It is not necessary that the expectation of advantage or profit should always be capable of pecuniary estimation, for a parent has an insurable interest in the life of his child, and a child in the life of his parent, a husband in the life of his wife, and a wife in the life of her husband. The natural affection in cases of this kind is considered as more powerful, as operating the more efficaciously, to protect the life of the insured than any other consideration, but in all cases there must be a reasonable ground, founded on relations to each other, either pecuniary or of blood or affinity, to expect some benefit or advantage from the continuance of the life of the assured. *Warnock v. Davis*, 104 U.S. 775, 26 L.Ed. 924; Appeal of Corson, 6 A. 213, 215, 113 Pa. 438, 57 Am. Rep. 479; *Connecticut Mut. Life Ins. Co. v. Luchs*, 2 S.Ct. 949, 952, 108 U.S. 498, 27 L.Ed. 800.

For purposes of this rule, the term "insurable interest" will be considered to apply to a beneficiary receiving retirement benefits due to the death of a pensioner or annuitant under the same circumstances as if the beneficiary were receiving life insurance benefits as a result of the death of the pensioner or annuitant.

For purposes of this rule, the term "survivor" is a person other than the surviving spouse of an annuitant or pensioner who is receiving the annuity or pension benefits because the person was a beneficiary of the pensioner or annuitant at the time of death of the pensioner or annuitant. In addition, in order for this person to qualify for the partial exclusion of pensions or retirement benefits, this survivor must have had an insurable interest in the pensioner or annuitant at the time of death of the annuitant or pensioner.

A survivor other than the surviving spouse will be considered to have an insurable interest in the pensioner or annuitant if the survivor is a son, daughter, mother, or father of the annuitant or pensioner. The relationship of these individuals to the pensioner or annuitant is considered to be so close that no separate pecuniary or monetary interest between the pensioner or annuitant and any of these relatives must be established.

A survivor may include relatives of the pensioner or annuitant other than those relatives that were mentioned above. However, before any of these relatives can be considered to be a survivor for purposes of this rule, the relative must have had some pecuniary interest in the continuation of the life of the pensioner or annuitant. That is, the relative must establish a relationship with the pensioner or annuitant that shows there was a reasonable expectation of an advantage or benefit which the person would have received with the continuance of the life of the pensioner or annuitant.

The fact that a niece of the pensioner or annuitant was named beneficiary of an uncle's pension where the uncle had no closer relatives does not in itself establish that the niece had an insurable interest in the pension benefits, if the niece was not receiving monetary benefits or the niece did not have some special relationship to the uncle at the time of the uncle's death.

If a grandson was receiving college tuition regularly from his grandfather and received the grandfather's pension as a beneficiary of the grandfather after the grandfather's death, the grandson would be deemed to have an insurable interest in the benefits and would be eligible for the partial retirement benefit exclusion.

A person who is not related to the pensioner or annuitant, such as a partner in a business or a creditor, may have an insurable interest in the pensioner or annuitant. However, the burden of proof is on a nonrelated person to show that the person had an insurable interest in the pensioner or the annuitant at the time of death of the pensioner or annuitant.

There are numerous court cases which deal with whether a person had established an insurable interest in the life of an individual that was insured. These cases may be used as a guideline to determine whether or not a person receiving a pension or annuity due to the death of an annuitant or pensioner had an insurable interest in the annuitant or pensioner at the time of death of the pensioner or annuitant. Thus, if a person would have met criteria for an insurable interest for purposes of an interest in a person's life insurance policy, the person would also be considered to be qualified for an insurable interest in a pensioner or annuitant.

Retirement benefits subject to the retirement income exclusion include, but are not limited to: benefits from defined benefit or defined contribution pension and annuity plans, benefits from annuities, incomes from individual retirement accounts, benefits from pension or annuity plans contributed by an employer or maintained or contributed by a self-employed person and benefits and earnings from deferred compensation plans. However, the exclusion does not apply to social security benefits. A surviving spouse who is not disabled or is not 55 years of age or older can only exclude retirement benefits received as a result of the death of the other spouse and on the basis that the deceased spouse would have been eligible for the exclusion in the tax year. In order for a survivor other than the surviving spouse to qualify for the partial exclusion of retirement benefits, the survivor must have received the retirement benefits as a result of the death of a pensioner or annuitant who would have qualified for the exclusion in the tax year on the basis of age or disability. In addition, the survivor other than the surviving spouse would have had to have an insurable interest in the pensioner or annuitant at the time of the death of the pensioner or annuitant.

For purposes of this rule, a disabled individual is a person who is receiving benefits as a result of retirement from employment or self-employment due to disability. In addition, a person is considered to be a disabled individual if the individual is determined to be disabled in accordance with criteria established by the Social Security Administration or other federal or state governmental agency.

Note that the pension or other retirement benefits that are excluded from taxation for certain individuals are to be considered as a part of net income for purposes of determining whether or not a particular individual's income is low enough to exempt that taxpayer from tax. In addition, the pension or other retirement benefits that are excluded from taxation for certain individuals are to be considered as a part of net income for the alternative tax computation, which is available to all taxpayers except those taxpayers filing as single individuals.

Finally, the pension or other retirement benefits are to be considered as a part of net income for individuals using the single filing status whose tax liabilities are limited so the liabilities cannot reduce the person's net income plus exempt benefits below \$9,000.

This rule is intended to implement Iowa Code sections 422.5 and 422.7.

**701—40.48(422) Health insurance premiums deduction.** For tax years beginning on or after January 1, 1996, the amounts paid by a taxpayer for health insurance for the taxpayer, the taxpayer's spouse, and the taxpayer's dependents are deductible in computing net income on the Iowa return to the extent the amounts paid were not otherwise deductible in computing adjusted gross income. However, amounts paid by a taxpayer for health insurance on a pretax basis whereby the portion of the wages of the taxpayer used to pay health insurance premiums is not included in the taxpayer's gross wages for income tax or social security tax purposes are not deductible on the Iowa return.

In situations where married taxpayers pay health insurance premiums from a joint checking or other joint account and the taxpayers are filing separate state returns or separately on the combined return form, the taxpayers must allocate the deduction between the spouses on the basis of the net income of each spouse to the combined net income unless one spouse can show that only that spouse's income was deposited to the joint account.

In circumstances where a taxpayer is self-employed and takes a deduction on the 1996 federal return for 30 percent of the premiums paid for health insurance on the federal return, the taxpayer would be allowed a deduction on the Iowa return for the portion of the health insurance premiums that was not deducted on the taxpayer's federal return, including any health insurance premiums deducted as an itemized medical deduction under Section 213 of the Internal Revenue Code.

For purposes of the state deduction for health insurance premiums, the same premiums for the same health insurance or medical insurance coverage qualify for this deduction as would qualify for the federal medical expense deduction. Thus, premiums paid for contact lens insurance qualify for the health insurance deduction. Also eligible for the deduction for tax years beginning in the 1996 calendar year are premiums paid by a taxpayer before the age of 65 for medical care insurance effective after the age of 65, if the premiums are payable (on a level payment basis) for a period of ten years or more or until the year the taxpayer attains the age of 65 (but in no case for a period of less than five years). For tax years beginning on or after January 1, 1997, premiums for long-term health insurance for nursing home coverage are eligible for this deduction to the extent the premiums for long-term health care services are eligible for the federal itemized deduction for medical and dental expenses.

Amounts paid under an insurance contract for other than medical care (such as payment for loss of limb or life or sight) are not deductible, unless the medical charge is stated separately in the contract or provided in a separate statement.

This rule is intended to implement Iowa Code section 422.7 as amended by 1997 Iowa Acts, Senate File 129.

**701—40.49(422) Employer social security credit for tips.** Employers in the food and beverage industry are allowed a credit under Section 45B of the Internal Revenue Code for a portion of the social security taxes paid or incurred after 1993 on employee tips. The credit is equal to the employer's FICA obligation attributable to tips received which exceed tips treated as wages for purposes of satisfying minimum wage standards of the Fair Labor Standards Act. The credit is allowed only for tips received by an employee in the course of employment from customers on the premises of a business for which the tipping of employees serving food or beverages is customary. To the extent that an employer takes the credit for a portion of the social security taxes paid or incurred, the employer's deduction for the social security tax is reduced accordingly. For Iowa income tax purposes, the full deduction for the social security tax paid or incurred is allowed for tax years beginning on or after January 1, 1994.

This rule is intended to implement Iowa Code Supplement section 422.7.

**701—40.50(422) Computing state taxable amounts of pension benefits from state pension plans.**

For tax years beginning on or after January 1, 1995, a retired member of a state pension plan, or a beneficiary of a member, who receives benefits from the plan where there was a greater contribution to the plan for the member for state income tax purposes than for federal income tax purposes can report less taxable income from the benefits on the Iowa individual income tax return than was reported on the federal return for the same tax year. This rule applies only to a member of a state pension plan, or the beneficiary of a member, who received benefits from the plan sometime after January 1, 1995, and only in circumstances where the member received wages from public employment in 1995, 1996, 1997, or 1998, or possibly in 1999 for certain teachers covered by the state pension plan authorized in Iowa Code chapter 294 so the member had greater contributions to the state pension plan for state income tax purposes than for federal income tax purposes. Starting with wages paid on or after January 1, 1999, to employees covered by a state pension plan other than teachers covered by the state pension plan authorized in Iowa Code chapter 294, contributions made to the pension plan will be made on a pretax basis for state income tax purposes as well as for federal income tax purposes. However, in the case of teachers covered by the state pension plan authorized in Iowa Code chapter 294, contributions to the pension plan on behalf of these teachers on a pretax basis for state income tax purposes may start after January 1, 1999.

For example, in the case of a state employee who was covered by IPERS and had wages from covered public employment of \$41,000 or more in 1995, that person would have made posttax contributions to IPERS of \$1,517 for state income tax purposes for 1995 and zero posttax contributions to IPERS for federal income tax purposes for 1995. The \$1,517 in contributions to IPERS for federal income tax purposes was made on a pretax basis and was considered to have been made by the employee's employer or the state of Iowa and not the employee. At the time this employee receives retirement benefits from IPERS, the retired employee will be subject to federal income tax on the portion of the benefits that is attributable to the \$1,517 IPERS contribution made in 1995. However, this employee will not be subject to state income tax on the portion of the IPERS benefits received which is attributable to the \$1,517 contribution to IPERS for 1995.

This rule does not apply to members or beneficiaries of members who elect to take a lump sum distribution of benefits from a state pension plan in lieu of receiving monthly payments of benefits from the plan.

The following subrules further clarify how the portion of certain state pension benefits that is taxable for state individual income tax purposes for tax years beginning on or after January 1, 1995, is determined.

**40.50(1) Definitions related to state taxation of benefits from state pension plan.** The following definitions clarify those terms and phrases that have a bearing on the state's taxation of certain individuals who receive retirement benefits from state pension plans:

*a.* For purposes of this rule, the terms "state pension," "state pensions," and "state pension plans" mean only those pensions and those pension plans authorized in Iowa Code chapter 97A for public safety peace officers, chapter 97B for Iowa public employees (IPERS), chapter 294 for certain teachers, and chapter 411 for police officers and firefighters. There are other pension plans available for some public employees in the state which may be described as "state pensions" or "state pension plans" in other contexts or situations, but these pension plans are not covered by this rule. An example of a pension plan that is not a "state pension plan" for purposes of this rule is the judicial retirement system for state judges authorized in Iowa Code section 602.9101.

*b.* For purposes of this rule, "member" is an individual who was employed in public service covered by a state pension plan and is either receiving or was receiving benefits from the pension plan.

*c.* For purposes of this rule, "beneficiary" is a person who has received or is receiving benefits from a state pension plan due to the death of an individual or member who earned benefits in a state pension plan.

*d.* For purposes of this rule, the term "IPERS" means the Iowa public employees retirement system.

e. For purposes of this rule, the term “pretax,” when the term is applied to a contribution made to a state pension plan during a year from a public employee’s compensation, means a contribution to a state pension plan that is not taxed on the employee’s income tax return for the tax year in which the contribution is made. The contribution is considered to have been made by the state or the employee’s employer and not by the employee so this contribution is not part of the employee’s basis in the pension that is not taxed when the pension is received.

f. For purposes of this rule, the term “posttax,” when the term is applied to a contribution made to a state pension plan during a year from a public employee’s compensation, means the contribution is included in the employee’s taxable income for the tax year of the contribution and the contribution is considered to have been made by the employee. That is, the contribution is part of the employee’s basis in the pension which is not taxed at the time the pension is received.

**40.50(2)** *Computation of the taxable amount of the state pension for federal income tax purposes.* An individual who receives benefits in the tax year from one of the state pension plans is not subject to federal income tax on the benefits to the extent of the pensioner’s or member’s recovery of posttax contribution to the pension plan. The individual receiving benefits in the year from a state pension plan should get a Form 1099-R showing the total benefits received in the tax year from the pension plan. The individual can determine the federal taxable amount of the benefits by using the general rule or the simplified general rule which is described in federal publication 17 or federal publication 575. Note that members who first receive pension benefits after November 18, 1996, must compute the federal taxable amount of their pension benefits by using the simplified general rule shown in the federal tax publications. Note also that individuals receiving benefits in the tax year from IPERS who started receiving benefits in 1993 or in later years will receive information with the 1099-R form which shows the amount of gross benefits received in the tax year that is taxable for federal income tax purposes.

**40.50(3)** *Computing the taxable amount of state pension benefits for state individual income tax purposes.* An individual receiving state pension benefits in the tax year must have a number of facts about the state pension in order to be able to compute the taxable amount of the pension for Iowa income tax purposes. The individual must know the gross pension benefits received in the tax year, the taxable amount of the pension for federal income tax purposes, the employee’s contribution to the pension for federal income tax purposes, and the employee’s contribution to the pension for state income tax purposes. In situations where the employee’s contribution for state income tax purposes is equal to the contribution for federal income tax purposes, the same amount of the pension will be taxable on the state income tax return as is taxable on the federal return.

In cases when all of an individual’s employment covered by a state pension plan occurred on or after January 1, 1995, so that all the contributions to the pension plan (other than posttax service purchases) for the employee were made on a pretax basis for federal income tax purposes, all of the benefits received from the pension would be taxed on the federal income tax return. In this situation, the state taxable amount of the pension would be computed using the general rule or the simplified general rule shown in federal publication 17 or federal publication 575. The employee’s state contribution or state basis would be entered on line 2 of the worksheet in the federal publication that is usually used to compute the taxable amount of the pension for the federal income tax return.

To compute the state taxable amount of the state pension in situations where the employee had a contribution to the pension for federal tax purposes, the federal taxable amount for the year is first subtracted from the gross pension benefit received in the year which leaves the amount of the pension received in the year which was not taxable on the federal return. Next, the member's posttax contribution or basis in the pension for federal tax purposes is divided by the member's posttax contribution or basis in the pension for state income tax purposes which provides the ratio of the member's federal basis or contribution to the member's state contribution or basis. Next, the amount of the state pension received in the year that is not taxed on the federal return is divided by the ratio or percentage that was determined in the previous step, which provides the exempt amount of the pension for state tax purposes. Finally, the state exempt amount determined in the previous step is subtracted from the gross amount received in the year, which leaves the taxable amount for state income tax purposes. Note that individuals who retired in 1993 and in years after 1993 and are receiving benefits from IPERS will receive information from IPERS which will advise them of the taxable amount of the pension for state income tax purposes. The examples in subrule 40.50(4) are provided to illustrate how the state taxable amounts of state pension benefits received in the tax year are computed in different factual situations.

**40.50(4) Examples.**

*a.* A state employee retired in April 1996 and started receiving IPERS benefits in April 1996. The retired state employee received \$1,794.45 in gross benefits from IPERS in 1996. The federal taxable amount of the benefits was \$1,690.36. The employee's federal posttax contribution or basis in the pension was \$4,907 and the state posttax contribution or basis was \$7,194. The nontaxable amount of the IPERS benefits for federal income tax was \$104.09 which was calculated by subtracting the federal taxable amount of \$1,690.36 from the gross amount of the benefits of \$1,794.45. The ratio of the employee's posttax contribution to the pension for federal income tax purposes was 68.21 percent of the employee's contribution to the pension for state income tax purposes. This was determined by dividing \$4,907 by \$7,194. The nontaxable amount of the IPERS benefit for federal income tax purposes of \$104.09 was then divided by 68.21 percent, which is the ratio determined in the previous step, and which results in a total of \$152.60. This was the nontaxable amount of the pension for state income tax purposes. When \$152.60 is subtracted from the gross benefits of \$1,794.45 paid in the year, the remaining amount is \$1,641.85 which is the taxable amount of the pension that should be reported on the individual's Iowa individual income tax return for the 1996 tax year.

*b.* A state employee retired in July 1995. The retired employee received \$1,881.88 in IPERS benefits in 1996 and \$1,790.60 of the benefits was taxable on the individual's federal return for 1996. The person's federal posttax contribution to the IPERS pension was \$3,130 and the posttax contribution for state income tax purposes was \$3,821. The amount of benefits not taxable for federal income tax purposes was \$91.28 which was computed by subtracting the amount of pension benefits of \$1,790.60 that was taxable on the federal income tax return from the gross benefits of \$1,881.88 received in 1996. The retiree's federal posttax contribution of \$3,130 to IPERS was divided by the retiree's posttax contribution of \$3,821 to IPERS for state income tax purposes which resulted in a ratio of 81.91 percent. The amount of IPERS benefits of \$91.28 exempt for federal income tax purposes is divided by the 81.91 percent computed in the previous step which results in an amount of \$111.44 which is the amount of IPERS benefits received in 1996 which is not taxable on the Iowa return. \$111.44 is subtracted from the gross benefits of \$1,881.88 received in 1996 which leaves the state taxable amount for 1996 of \$1,770.44.

This rule is intended to implement Iowa Code section 422.7 as amended by 1998 Iowa Acts, House File 2513.

**701—40.51(422) Exemption of active-duty military pay of national guard personnel and armed forces military reserve personnel for overseas services pursuant to military orders for peacekeeping in the Bosnia-Herzegovina area.** For active duty military pay received on or after November 21, 1995, by national guard personnel and by armed forces military reserve personnel, the pay is exempt from state income tax to the extent the military pay was earned overseas for services performed pursuant to military orders related to peacekeeping in the Bosnia-Herzegovina area. In order for the active duty pay to qualify for exemption from tax, the military service had to have been performed outside the United States, but not necessarily in the Bosnia-Herzegovina area.

This rule is intended to implement Iowa Code section 422.7 as amended by 1997 Iowa Acts, House File 355.

**701—40.52(422) Mutual funds.** Iowa does not tax dividend or interest income from regulated investment companies to the extent that such income is derived from interest on United States Government obligations or obligations of this state and its political subdivisions. The exemption is also applicable to income from regulated investment companies which is derived from interest on government-sponsored enterprises and agencies where federal law specifically precludes state taxation of such interest. Income derived from interest on securities which are merely guaranteed by the federal government or from repurchase agreements collateralized by the United States Government obligations is not excluded and is subject to Iowa income tax. There is no distinction between Iowa's tax treatment of interest received by a direct investor as compared with a mutual fund shareholder. The interest retains its same character when it "flows-through" the mutual fund and is subject to taxation accordingly.

Taxpayers may subtract from federal adjusted gross income, income received from any of the obligations listed in 701—subrule 40.2(1) and rule 701—40.3(422) above, even if the obligations are owned indirectly through owning shares in a mutual fund:

1. If the fund invests exclusively in these state tax-exempt obligations, the entire amount of the distribution (income) from the fund may be subtracted.
2. If the fund invests in both exempt and nonexempt obligations, the amount represented by the percentage of the distribution that the mutual fund identifies as exempt may be subtracted.
3. If the mutual fund does not identify an exempt amount or percentage, taxpayers may figure the amount to be subtracted by multiplying the distribution by the following fraction: as the numerator, the amount invested by the fund in state-exempt United States obligations; as the denominator, the fund's total investment. Use the year-end amounts to figure the fraction if the percentage ratio has remained constant throughout the year. If the percentage ratio has not remained constant, take the average of the ratios from the fund's quarterly financial reports.

Therefore, if the federal adjusted gross income of an individual, taxable by Iowa, includes dividends or interest of this type, an adjustment must be made deducting the amount of the dividend or interest.

This rule is intended to implement Iowa Code section 422.7.

**701—40.53(422) Deduction for contributions by taxpayers to the Iowa educational savings plan trust and addition to income for refunds of contributions previously deducted.** The Iowa educational savings plan trust was created so that individuals can contribute funds on behalf of beneficiaries in accounts administered by the secretary of state to cover future higher education costs of the beneficiaries. The following subrules provide details on how individuals' net incomes are affected by contributions to beneficiaries' accounts, interest and any other earnings earned on beneficiaries' accounts, and refunds of contributions which were previously deducted.

**40.53(1)** *Deduction from net income for contributions made to the Iowa educational savings plan trust on behalf of beneficiaries.* Effective with contributions made on or after July 1, 1998, an individual referred to as a “participant” can claim a deduction on the Iowa individual income tax return for contributions made by that individual to the Iowa educational savings plan trust on behalf of a beneficiary. The deduction on the 1998 Iowa return cannot exceed \$2,000 per beneficiary for contributions made in 1998 or the adjusted maximum annual amount for contributions made after 1998. Note that the maximum annual amount that can be deducted per beneficiary may be adjusted or increased to an amount greater than \$2,000 for inflation on an annual basis. Starting with tax years beginning in the 2000 calendar year, a participant may contribute an amount on behalf of a beneficiary that is greater than \$2,000, but may claim a deduction on the Iowa individual return of the lesser of the amount given or \$2,000 as adjusted by inflation. For example, if a taxpayer made a \$5,000 contribution on behalf of a beneficiary to the educational savings plan in 2000, the taxpayer may claim a deduction on the IA 1040 return for 2000 in the amount of \$2,054, as this amount is \$2,000 as adjusted for inflation in effect for 2000.

For example, an individual has ten grandchildren from the age of six months to 12 years. In October 1998, the person became a participant in the Iowa educational savings plan trust by making \$2,000 contributions to the trust on behalf of each of the ten grandchildren. When the participant files the 1998 Iowa individual income tax return, the participant can claim a deduction on the return for the \$20,000 contributed to the Iowa educational savings plan trust on behalf of the individual’s ten grandchildren.

**40.53(2)** *Exclusion of interest and earnings on beneficiary accounts in the Iowa educational savings plan trust.* To the extent that interest or other earnings accrue on a beneficiary’s account in the Iowa educational savings plan trust, the interest or other earnings are excluded for purposes of computing net income on the Iowa individual income tax return of the participant or the return of the beneficiary.

**40.53(3)** *Including on the Iowa individual return amounts refunded to the participant from the Iowa educational savings plan trust that had previously been deducted.* If a participant cancels a beneficiary’s account in the Iowa educational savings plan trust and receives a refund of the funds in the account made on behalf of the beneficiary, the refund of the funds is to be included in net income on the participant’s Iowa individual income tax return to the extent that contributions to the account had been deducted on prior state individual income tax returns of the participant.

For example, because a beneficiary of a certain participant died in the year 2000, this participant in the Iowa educational savings plan trust canceled the participant agreement for the beneficiary with the trust and received a refund of \$4,200 of funds in the beneficiary’s account. Because \$4,000 of the refund represented contributions that the participant had deducted on prior Iowa individual income tax returns, the participant was to report on the Iowa return for the tax year 2000, \$4,000 in contributions that had been deducted on the participant’s Iowa returns for 1998 and 1999.

**40.53(4)** *Deduction for contributions made to the endowment fund of the Iowa educational savings plan trust.* To the extent that the contribution was not deductible for federal income tax purposes, an individual can deduct on the Iowa individual income tax return a gift, grant, or donation to the endowment fund of the Iowa educational savings plan trust.

This rule is intended to implement Iowa Code section 422.7.

**701—40.54(422) Roth individual retirement accounts.** Roth individual retirement accounts were authorized in the Taxpayer Relief Act of 1997 and are applicable for tax years beginning after December 31, 1997. Generally, no deduction is allowed on either the federal income tax return or the Iowa individual income tax return for a contribution to a Roth IRA. The following subrules include information about tax treatment of certain transactions for Roth IRAs.

**40.54(1)** *Taxation of income derived from rolling over or converting existing IRAs to Roth IRAs.* At the time existing IRAs are rolled over to or converted to Roth IRAs in the 1998 calendar year or in a subsequent year, any income realized from the rollover or conversion of the existing IRA is taxable. However, in the case of conversion of existing IRAs to Roth IRAs in 1998, the taxpayer can make an election to have all the income realized from the conversion subject to tax in 1998 rather than have the conversion income spread out over four years. If the conversion income is spread out over four years, one-fourth of the conversion income is included on the 1998 Iowa and federal returns of the taxpayer and one-fourth of the income is included on the taxpayer's Iowa and federal returns for each of the following three tax years. Note that if an existing IRA for an individual is converted to a Roth IRA for the individual in a calendar year after 1998, all the income realized from the conversion is to be reported on the federal return and the Iowa return for that tax year for the individual. That is, when conversion of existing IRAs to Roth IRAs occurs after 1998, there is no provision for having the conversion income taxed over four years.

For example, an Iowa resident converted three existing IRAs to one Roth IRA in 1998, realized \$20,000 in income from the conversion, and did not elect to have all the conversion income taxed on the 1998 Iowa and federal returns. Because the taxpayer did not make the election so all the conversion income was taxed in 1998, \$5,000 in conversion income was to be reported on the taxpayer's federal and Iowa returns for 1998 and similar incomes were to be reported on the federal and Iowa returns for 1999, 2000, and 2001. Note that to the extent the recipient of the Roth IRA conversion income is eligible, the conversion income is subject to the pension/retirement income exclusion described in rule 40.47(422).

**40.54(2)** *Roth IRA conversion income for part-year residents.* To the extent that an Iowa resident has Roth IRA conversion income on the individual's federal income tax return, the same income will be included on the resident's Iowa income tax return. However, when an individual with Roth IRA conversion income in the tax year is a part-year resident of Iowa, the individual may allocate the conversion income on the Iowa return in the ratio of the taxpayer's months in Iowa during the tax year to 12 months. In a situation where an individual spends more than half of a month in Iowa, that month is to be reported to Iowa for purposes of the allocation.

For example, an individual moved to Des Moines from Omaha on June 12, 1998, and had \$20,000 in Roth IRA conversion income in 1998. Because the individual spent 7 months in Iowa in 1998, 7/12, or 60 percent, of the \$20,000 in conversion income is allocated to Iowa. Thus, \$12,000 of the conversion income should be reported on the taxpayer's Iowa return for 1998.

This rule is intended to implement Iowa Code section 422.7 as amended by 1998 Iowa Acts, Senate File 2357.

**701—40.55(422)** **Exemption of income payments for victims of the Holocaust and heirs of victims.** For tax years beginning on or after January 1, 2000, income payments received by individuals because they were victims of the Holocaust or income payments received by individuals who are heirs of victims of the Holocaust are excluded in the computation of net incomes, to the extent the payments were included in the individuals' federal adjusted gross incomes. Victims of the Holocaust were victims of persecution in the World War II era for racial, ethnic or religious reasons by Nazi Germany or other Axis regime.

Holocaust victims may receive income payments for slave labor performed in the World War II era. Income payments may also be received by Holocaust victims as reparation for assets stolen from, hidden from, or otherwise lost in the World War II era, including proceeds from insurance policies of the victims. The World War II era includes the time of the war and the time immediately before and immediately after the war. However, income from assets acquired with the income payments or from the sale of those assets shall not be excluded from the computation of net income. The exemption of income payments shall only apply to the first recipient of the income payments who was either a victim of persecution by Nazi Germany or any other Axis regime or a person who is an heir of the victim of persecution.

This rule is intended to implement Iowa Code sections 217.39 and 422.7.

**701—40.56(422) Taxation of income from the sale of obligations of the state of Iowa and its political subdivisions.** For tax years beginning on or after January 1, 2001, income from the sale of obligations of the state of Iowa and its political subdivisions shall be added to Iowa net income to the extent not already included. Gains or losses from the sale or other disposition of bonds issued by the state of Iowa or its political subdivisions shall be included in Iowa net income unless the law authorizing these obligations specifically exempts the income from the sale or other disposition of the bonds from the Iowa individual income tax.

This rule is intended to implement Iowa Code section 422.7 as amended by 2001 Iowa Acts, chapter 116.

**701—40.57(422) Installment sales by taxpayers using the accrual method of accounting.** For tax years beginning on or after January 1, 2000, and prior to January 1, 2002, taxpayers who use the accrual method of accounting and who have sales or exchanges of property that they reported on the installment method for federal income tax purposes must report the total amount of the gain or loss from the transaction in the tax year of the sale or exchange pursuant to Section 453 of the Internal Revenue Code as amended up to and including January 1, 2000.

EXAMPLE 1. Taxpayer Jones uses the accrual method of accounting for reporting income. In 2001, Mr. Jones sold farmland he had held for eight years for \$200,000 which resulted in a capital gain of \$50,000. For federal income tax purposes, Mr. Jones elected to report the transaction on the installment basis, where he reported \$12,500 of the gain on his 2001 federal return and will report capital gains of \$12,500 on each of his federal returns for the 2002, 2003 and 2004 tax years.

However, for Iowa income tax purposes, Mr. Jones must report on his 2001 Iowa return the entire capital gain of \$50,000 from the land sale. Although Taxpayer Jones must report a capital gain of \$12,500 on each of his federal income tax returns for 2002, 2003 and 2004, from the installment sale of the farmland in 2001, he will not have to include the installments of \$12,500 on his Iowa income tax returns for those three tax years because Mr. Jones had reported the entire capital gain of \$50,000 from the 2001 transaction on his 2001 Iowa income tax return.

EXAMPLE 2. Taxpayer Smith uses the accrual method of accounting for reporting income. In 2002, Mr. Smith sold farmland he had held for eight years for \$500,000 which resulted in a capital gain of \$100,000. For federal income tax purposes, Mr. Smith elected to report the transaction on the installment basis, where he reported \$20,000 of the gain on his 2002 federal return and will report the remaining capital gains on federal returns for the four subsequent tax years. Because this installment sale occurred in 2002, Mr. Smith shall report \$20,000 of the capital gain on his Iowa income tax return for 2002 and will report the balance of the capital gains from the installment sale on Iowa returns for the next four tax years, the same as reported on his federal returns for those years.

This rule is intended to implement Iowa Code section 422.7 as amended by 2002 Iowa Acts, House File 2116.

**701—40.58(422) Exclusion of distributions from retirement plans by national guard members and members of military reserve forces of the United States.** For tax years beginning on or after January 1, 2002, members of the Iowa national guard or members of military reserve forces of the United States who are ordered to active state service or federal service or duty are not subject to Iowa income tax on the amount of distributions received during the tax year from qualified retirement plans of the members to the extent the distributions were taxable for federal income tax purposes. In addition, the members are not subject to state penalties on the distributions even though the members may have been subject to federal penalties on the distributions for early withdrawal of benefits. Because the distributions described above are not taxable for Iowa income tax purposes, a national guard member or armed forces reserve member who receives a distribution from a qualified retirement plan may request that the payer of the distribution not withhold Iowa income tax from the distribution.

This rule is intended to implement Iowa Code section 422.7 as amended by 2002 Iowa Acts, House File 2622.

**701—40.59(422) Exemption of payments received by a beneficiary from an annuity purchased under an employee's retirement plan when the installment has been included as part of a decedent employee's estate.** All payments received on or after July 1, 2002, by a beneficiary of a deceased pensioner or annuitant are exempt from Iowa income tax to the extent the payments are from an annuity purchased under an employee's pension or retirement plan when the commuted value of the installments has been included as a part of the decedent employee's estate for Iowa inheritance tax purposes. Thus, a lump sum payment received by a beneficiary from an annuity purchased under an employee's pension or retirement plan is exempt from Iowa income tax to the extent the commuted value of the annuity was included as part of the decedent employee's estate for Iowa inheritance tax purposes. Under prior law, only installment payments of an annuity received by a beneficiary were exempt from Iowa income tax if the commuted value of the installments had been included as part of the decedent employee's estate for Iowa inheritance tax purposes.

This rule is intended to implement Iowa Code section 422.7 as amended by 2002 Iowa Acts, Senate File 2305.

**701—40.60(422) Additional first-year depreciation allowance.** For tax periods ending on or after September 10, 2001, the additional first-year depreciation allowance ("bonus depreciation") authorized in Section 168(k) of the Internal Revenue Code, as enacted by Public Law No. 107-147, Section 101, does not apply for Iowa individual income tax. Taxpayers who claim the bonus depreciation on their federal income tax return must add the total amount of depreciation claimed on assets placed in service after September 10, 2001, and subtract the amount of depreciation taken on such property using the modified accelerated cost recovery system (MACRS) depreciation method applicable under Section 168 of the Internal Revenue Code without regard to Section 168(k).

If any such property was sold or disposed of during the tax year, the applicable depreciation catch-up adjustment must be made to adjust the basis of the property for Iowa tax purposes. The gain or loss reported on the sale or disposition of these assets for federal tax purposes must be adjusted for Iowa tax purposes to account for the adjusted basis of assets.

The adjustment for both depreciation and the gain or loss on the sale of qualifying assets placed in service after September 10, 2001, can be calculated on Form IA 4562A.

See rule 701—53.22(422) for examples illustrating how this rule is applied.

This rule is intended to implement Iowa Code section 422.7 as amended by 2003 Iowa Acts, Senate File 442.
